Education

Bachelor of Science in Computer Science   2022-2026 (Expected)
University of the Philippines - Diliman
- *Magna cum laude standing*

Relevant Coursework: Data Science, Data Structures and Algorithms, Computer Architecture and Organization, Elementary Numerical Computing, Formal Verification and Logic, Automata Theory and Complexity

Skills

Web Development: HTML5, CSS3 (*Tailwind*), JavaScript (*React with Next.js, Vue, SvelteKit*), Netlify, Vercel, Framer, Webflow
Programming: Python (*BeautifulSoup4, Pandas, Keras, scikit-learn*), C, Java, Coq
Tools: Git, GitHub, Figma, Google Apps Script, Adobe Creative Suite

Work Experience

Engineering Intern, *Panyero*   Nov - March 2024
- Automated the data preprocessing of over 35K documents and HTML formatting of Philippine laws and jurisprudence corpus at an MVP-stage AI startup, significantly improving the efficiency of work that was previously done manual.

Leadership & Volunteering

Public Relations & Promotions Manager*, UP AdCore's Teenspeak 2024*   Feb 2024 - present
- Handle and oversee integrated marketing communications strategy for the premier student-run advertising case competition in the Philippines, accumulating over 300 participants and 100 ambassadors nationwide.

Branding & Creatives Manager, *UP CURSOR's Tackle 2024*   Oct - Jan 2024
- Designed the logo and brand identity for a flagship tech career expo in UP Diliman, increasing event recognizability to over 450 participants and social media organic reach by 160% from last iteration.

Founding Media & Publicity Head, *UP Innovation Leaders' Hub (UP NOVA)*   Oct - Dec 2023
- Co-founded a university-wide, student-led association that advocates for inclusive and multidisciplinary innovation—from social justice initiatives to technological breakthroughs.
- Crafted brand identity and logo that align with UP NOVA's mission of promoting innovation and diversity within a multidisciplinary framework, enhancing professional image and strategic messaging.

Opportunities Team Head, *UP CURSOR*   Feb - Jun 2023
- Systematized the workflow of finding quality opportunities (e.g. internships, hackathons, conferences, etc.) for students in the UP Diliman tech community, improving the rate of broadcasted opportunities per month by 400%.

Overall Head, *UP CURSOR's UNPLUG: Life Outside Acads*   Nov - Dec 2022
- Spearheaded a team of student volunteers using a Scrumban methodology, successfully securing over 100 participants, 4 speakers, 5 ambassadors, and 3 org partnerships within only a month from planning to executions.

Extracurricular Achievements

Champion & Iconic UX Design Award, *Old.St Labs's Cold Start Hackathon 2023*   Sept 2023
Prototype: bit.ly/4cSh4BM
- Ideated and prototyped *Checkmat*e, a dating app solution minimizing incestuous relationships in Game of Thrones.

Champion, *Google DSC - Diliman's Solutions Challenge 2023*   March 2023
Prototype: bit.ly/4aR7Dkd
- Ideated and prototyped *Nayon*, a volunteering app solution focusing on project transparency and impact measurability.

Projects

Portfolio Website *using React, Next.js, Tailwind*   April 2024 - present
arkimanago.com | github.com/ark1tech/Portfolio
- Designed and developed my branding and personal website.

CS 132 Data Science Portfolio Webpage *using SvelteKit, Tailwind*   April 2024 - present
pocari-cs132.arkimanago.com | github.com/ark1tech/CS-132
- Designed and developed the portfolio webpage for our data science project that aims to analyze PH labor struggles.

Broughtby Landing Webpage *using SvelteKit, Tailwind*   April 2024 - present
broughtby.us | github.com/ark1tech/Broughtby
- Designed the brand identity and developed the landing webpage of Broughtby, a startup that focuses on easing corporate transactions of student-led and youth-led events.

Older Sister Wedding Info Website *using Vue, Tailwind*   Feb 2024
geandkrish.com | github.com/ark1tech/KGWedding
- Designed and developed a website that guided over 100 guests about the wedding and the couple.
